

Ramadas, Shelters, Pavilions and More! January 2016 Price List

Engineering

Up to four sets of sealed engineering drawings and calculations are available for \$800. Up to four sets of shop drawings are available for \$200. Price is for each size and model.

Design Loads

Most shelters are designed for a minimum 20# snow loads, 90 mph wind loads, and zone 2 seismic using the IBC codes. Call for loads in excess of above. Heavy load designs could change shelter pricing.

Frame Paint - 2 choices

Standard steel and aluminum frames are shipped with a factory applied 1) ANTI-GRAFFITI glossy, super durable polyester TGIC powder coated finish OR 2) Matte low gloss, super durable polyester TGIC powder coated finish. Both cured at 400 degrees. All steel is shot blasted and cleaned with iron phosphates wash and an acid rinse/sealer. Touch up may be needed after assembly.

Roofing

Prices include your choice of aluminum or galvalume structural roof panels. Available with a baked-on polyester finish, the panels snap together for easy installation and a water tight, all weather seam.

Optional roofing available for an additional cost

- Add 5% for 8" wide aluminum flush mount roof panels
- Call for quote on 18" wide standing seam roof panel in Galvalume® with a Cool roof finish
- Call for quote on tongue and groove roofs in cedar or pine, cover with traditional roof materials.
- Sandwich panel roofs are available with a polystyrene core, and .032 aluminum on both sides. These need not be covered with any other roof material.

Aluminum Railing

All rails, posts and pickets are maintenance free aluminum. Available in standard powder coated colors, railing meets OSHA, ADA, and BOCA safety criteria.

Price Quotations

Our quotations are for immediate acceptance and are subject without notice to changing market conditions. Clerical errors are subject to correction.

Freight

Freight is not included in the price. Shipped FOB Salem IL. Freight cost is added to invoice. Freight quotes can be provided.

Custom Sizes

Call us with your requirements and our engineers will work with you to create the shelter size you need.

ATTENTION: Party to be receiving the shelter:

- Follow standard shipping & receiving procedures.
- Count & check all packages against packing slip/shipping papers. If short, you should initiate a claim with the carrier immediately. Call us for quick shipment of replacements parts.
- Note any shortage or damage with the truck driver on the delivery receipt.
- Have adequate personnel on hand for unloading.*
Note: A forklift would aid in unloading skidded items. Not available?
The plastic on the skid can be removed for hand unloading of items.
* Failure to have adequate personnel for unloading is likely to incur additional charges from freight carrier for which you will be responsible.
- The freight carrier will call receiving party to schedule an appointment. Changes may incur additional charges to be paid by the receiving party. If unreasonable delays in delivery are requested, storage fees may be imposed.

Order Anytime

We are open from 8:00-5:00, Monday through Friday. We are in Central Standard and Central Daylight time zones. The office is closed on Saturday and Sundays. After hours, we have voice mail, fax machines and e-mail for orders and messages.

Fax: 618-548-2890

E-mail: sales@americana.com
