

# site furnishings

2013

## 100% Made In the U.S.A.

One hundred percent of BRP by bison's full line of site furnishings including benches, bike security stations, litter and recycling receptacles, planters, and ash receptacles is hereby certified to be comprised of materials 100% sourced from U.S. suppliers and proudly manufactured in our Lincoln, Nebraska, plant, creating jobs to support the American economy.

## Custom Designed and Fabricated Site Furnishings

BRP by bison offers a broad range of standard site furnishing collections that will satisfy the needs of most landscape and parkscape designers. Occasionally, there is a need or desire for custom or semi-custom site furnishings to match or complement existing or planned project components. BRP by bison is uniquely qualified to provide custom design and manufacturing to satisfy these needs as 100% of our work is done in-house in our own modern facility.

As a true manufacturer with all items built onsite, most custom orders are shipped in 4-8 weeks. Feasibility of custom products will depend on complexity, volume and other factors. Contact our design specialists to discuss your needs.

## Our Unique Approach to “Green”

At BRP by bison™, our product engineering, manufacturing processes, and the materials we purchase are developed with environmentally-friendly yet cost effective strategies in mind. BRP by bison is committed to using high content post-consumer, post-industrial recycled steel and plastics as well as processes that use green, recycled components whenever possible throughout the prototype, fabrication, and finishing stages. BRP by bison is proud to be a manufacturer of premium bicycle security stations to encourage alternative transportation, ash receptacles and ash top options to help define smoking and non-smoking areas, seating options to complement outside recreation activities, and litter and recycling receptacles to assist in controlling and reducing waste. Our entire product line carries a Lifetime Functional Warranty as a testament to our commitment to sustainability and our low maintenance, durable finishes carry a 10-year warranty.

Our Lincoln, Nebraska, manufacturing facilities are in the heart of a century-old industrial area in close proximity to transportation hubs. BRP by bison's employees believe in good, old-fashioned common sense and a Midwestern work ethic that, in combination, ensures that our customers benefit from frugal, value-driven decision making that helps to reduce waste, control costs, and encourage innovative thinking that often leads to product improvements and new products that solve our customers' common challenges. “Going Green” may be a 21st century approach, but for our company, it's the way we've always lived and so, for us, the more things change, the more they stay the same.

## Product Compatibility with LEED

Many of BRP by bison's products have features that can contribute to LEED certification. All information is based on the guidelines set by the U.S. Green Building Council, which can be found online at [www.usgbc.org](http://www.usgbc.org).

**Alternative Transportation** • Sustainable Sites Credit 4.2: Alternative Transportation: Bicycle Storage and Changing Rooms  
BRP by bison offers a wide variety of bicycle security stations that provide a suitable means for securing bicycles. The addition of bike security to a site encourages people to use alternate transportation, helping to reduce pollution.

**Maximize Open Space** • Sustainable Sites Credit 5.2: Site Development: Maximize Open Space

Site furnishings such as benches and chairs from BRP by bison can maximize the utilization of open space in a building project and facilitate a pedestrian-oriented environment. Our planters, including our innovative pole-mounted designs, provide an additional opportunity for greenery even in the most urban of projects.

**Recyclables Collection** • Materials and Resources Prerequisite 1: Storage and Collection of Recyclables

BRP by bison litter and recycling receptacles can contribute to the storage and collection of recyclables.

**Smoking Control** • Indoor Environmental Quality Prerequisite 2: Environmental Tobacco Smoke Control

BRP by bison ash receptacles and litter receptacles with ash tops can help reduce environmental tobacco smoke in buildings by providing outdoor alternatives. BRP by bison benches, tables, and chairs create an inviting location that can strategically be placed away from indoor smoking-restricted areas and building entrances.

**Powder Coating Process** • Indoor Environmental Quality Credit 4.2: Low-Emitting Materials: Paints and Coatings

BRP by bison has quality powder coating lines onsite that handle all Weatherbeater Mastercoat™ traditional powder coating and EcoSoft™ thermoplastic finishes. Both processes result in minimal waste and are environmentally friendly. Plus, the efficient layout of our automated lines reduces overall cost and our low-cost, clean natural gas cure ovens reduce our dependence on secondary heating systems in cooler months.

**Recycled Content** • Materials and Resources Credit 4: Recycled Content

One hundred percent of BRP by bison's products are steel, the world's most recycled material. BRP by Bison purchases its steel from domestic (USA) mills and they provide merchant bar and rebar products produced from 100% recycled scrap. Our ductile iron castings are produced utilizing 95% recycled steel and iron scrap. Our receptacle liners are 100% recyclable. And, our 100% steel products are 100% recyclable!

**Regional Materials** • Materials and Resources Credit 5: Regional Materials

BRP by bison is centrally located and, therefore, we are able to provide site furnishings to a 14-state section of the Midwest to meet LEED's regional requirement. A 500-mile radius around our manufacturing facility includes Denver to the West, Chicago to the East, Grand Forks to the North, and the Texas panhandle to the South and includes major metropolitan areas of Minneapolis, Kansas City, and St. Louis as well. Our entire product line is manufactured in Lincoln, Nebraska (68508).

## Being Green Isn't So Hard!

We want our customers to feel confident that their purchase is an excellent environmental decision and to rest assured their new BRP by bison site furnishings contribute to rather than diminish the beautiful green spaces our equipment often inhabits. To that end, we've compiled a few additional facts on the subject of being green.

### Designing Products Built to Last

BRP by bison site furnishings are constructed from industrial-strength materials reducing the need for future replacements and extending product life, as evidenced by our Lifetime Functional Warranty. Classic and comfortable designs ensure compatibility with ever-changing land uses and fashions.

### Low Maintenance Finishes

BRP by bison site furnishings are low maintenance products that require just soap and water to clean in most instances. Our finishes are low-emission to reduce long-term impact on the environment. If a finish is damaged, our 100% welded steel construction products can be sandblasted, a chemical-free process, and simply re-finished.

### Reducing, Reusing, and Recycling In Our Facilities

Our employees continue to expand our facility-wide recycling efforts for steel, aluminum, glass, plastics, corrugated, and paper and our packaging process limits the use of non-recyclable materials and uses recycled skids and crating materials whenever possible. Our product catalog is printed on paper utilizing post-consumer recycled fiber. To reduce energy costs and fuel needs, our production areas have converted to four 10-hour shifts, plus open windows and doors allow fresh air in whenever temperatures allow, and energy-efficient strategies control lighting and equipment use when office and production areas are closed, and many staff members take advantage of our city's extensive bike and walking trails.

This catalog is printed  
on recycled paper.

# Site Furnishing Finishes

When you specify BRP by bison as your site furnishing supplier, you can feel confident that the product will look great not only the day it's installed, but also for years to come.

With over 25 years of finishing expertise, we know what it takes to create a long lasting finish and back up that expertise with a 10-year finish warranty on Weatherbeater Mastercoat, EcoSoft and hot dip galvanized finishes.

Select the finish that best satisfies your sitescape needs.

\*Weatherbeater Mastercoat Only

# Weatherbeater Mastercoat™ Finish

It takes attention to detail to feel confident offering a 10-year warranty on outdoor finishes. BRP by bison starts with 100% welded construction eliminating the risk of finish failure at assembly points. Sandblasting, 5-stage wash and conversion coating prep the material for proper powder coating application and curing. The specially formulated epoxy primer and textured Weatherbeater finish coat when properly precured, then cured, will produce a tough bond and minimum 8 mil average finish thickness. Note that custom colors are sandblasted, powder coated with the custom polyester color coat and then clear coated with a protective clear textured finish. Proper packaging completes what we feel is the best finishing process in the industry.

Choose from the standard colors shown or consult your BRP by bison salesperson about the availability of custom colors which may be available at no extra cost depending on the actual color and order size. You may also select a gray powder coated primer to provide a finish ready for on-site painting with a topcoat.

Weatherbeater Mastercoat is the standard finish on all BRP by bison powder coated products with the exception of our Private Collection furnishings.

## Standard Weatherbeater Mastercoat™ Colors (No additional cost)

# EcoSoft™ Thermoplastic Finish

BRP by bison EcoSoft offers the thick, soft feel found with fluidized bed or dipped PVC plastic coated products but without the environmental risks common in traditional plastic coating processes.

EcoSoft is the standard finish on all BRP by bison Private Collection products and its 30-50 mil thickness reduces edges that are sometimes created when laser cutting logos or lettering into customized site furnishings.

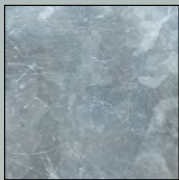

While surface preparation, packaging and 10-year warranty are identical to our Weatherbeater Mastercoat, EcoSoft is designed to be applied and cured in a single thick coating.

Choose your EcoSoft color from the options shown.

## Standard EcoSoft™ Colors (No additional cost)

# Hot Dip Galvanized Finish (No additional cost)

hot dip galvanized

While we only offer a 10-year warranty, in reality you should consider this a lifetime finish in most applications. All hot dip galvanizing is done after all fabrication and welding is complete to assure maximum coverage of all areas. Our hot dip galvanized option is especially good for bike security stations, bollards or similar products when aesthetics are less important than durability.

Under normal circumstances, it is not advisable to hot dip galvanize benches or receptacles.

# Manchester™

MC104-72 (raven)  
with optional center armrest

MC101-72 (husker)

MC106-72 (pewter)

MC105-72  
(architectural bronze)

MC102-72 (eggshell)

MC115-72-SM (glacier)

*Rhus cotinus*  
smoke tree

Flowering large shrubs or small trees, native to the Northern Hemisphere. Leaves are deciduous. The common name derives from 'smoke-like' fluffy flower heads.

Decorative Cast

Streamlined Bar

Embedded Tubular Mount (EM)

Surface Tubular Mount (SM)

Order ZCASTPLAQUE for optional cast bronze plaque.

# Manchester™ bench collection

Manchester Collection benches are characterized by their attractive and comfortable vertical slat design. All vertical slat benches in the industry are not created equal. BRP by bison uses only full 1/4" thick x 1 1/2" wide carbon steel seat slats and each is finished with our exclusive Weatherbeater Mastercoat finish with a 10-year warranty. Manchester Collection backless or backed benches are available with traditional decorative cast ends, streamlined bar ends or tubular mount. Choose 48", 72" or 96" length for the perfect fit within your project. You'll love the look and you'll love the durability.

Order optional base covers (see page 38)

Order ZARMR for **FREE** optional center armrest on 72" and 96" backed benches only.

# Private Collection™ bench collection

Private Collection benches allow landscape architects and owners to customize their site furnishings while maintaining the superior structural integrity found in our full line of benches and receptacles. Using the latest design software integrated with state-of-the-art fabrication equipment, BRP by bison is well equipped to work with you to design the perfect lettering or logo option to enhance your streetscape, park or commercial facility. Since 100% of manufacturing and finishing is done in-house, we have no minimum quantity or artwork upcharge. And you will be amazed at the turnaround time. As an added feature, all Private Collection site furnishings are finished with our premium EcoSoft thermoplastic powder coated finish that creates a comfortable yet durable feel similar to polyvinyl (PVC) fluidize bed dipped coating but without the environmentally unfriendly PVC hazards. Private Collection can also be ordered with our 10-year Weatherbeater Mastercoat finish. With BRP by bison Private Collection, you will truly be able to say that your landscape furnishings are one of a kind.

# Urban Renewal™

UR101-72 (pewter)

UR122-72 (glacier)

UR105-48 (raven)

UR102-72 (husker)

*Rhus cotinus*  
smoke tree

Flowering large shrubs or small trees, native to the Northern Hemisphere. Leaves are deciduous. The common name derives from 'smoke-like' fluffy flower heads.

Decorative Laser Cut Ends

Rebar Ends

Double Width

Single Width

# Urban Renewal™ bench collection

While our Urban Renewal Collection offers unique styling to enhance inner city, downtown or uptown revitalization and recommercialization projects, it will also appeal to owners and landscape professionals looking to avoid "me, too" site furnishing designs for any public space. Utilizing 100% recycled content and multiple sizes of rebar, the Urban Renewal collection includes benches, receptacles and bike security stations not found from other manufacturers.

Urban Renewal bench options include backed, backless, single width and double width, most in your choice of 48", 72" or 96" lengths and all with our industry leading 10-year warranty Weatherbeater Mastercoat™ finish.

# Urban Renewal™

receptacle collection

Designed to complement our Urban Renewal Bench Collection or to provide a stand alone, unique look in any park or streetscape. Rebar components have 100% recycled content making them as green as they are durable. All Urban Renewal site furnishings feature our exclusive 10-year warranty Weatherbeater Mastercoat™ finish.

UR101-48 (pewter)

UR450-FT (ecoblue)

UR450-FT (ecoblue)

UR402-DT (pewter)

*Berberis vulgaris*  
barberry

Popular landscape shrubs. They are also valued for crime prevention; being very dense, with viciously spiny shrubs, they make very effective barriers to ward away unwanted visitors.

URCA5-SM (raven)

# Cafe Collection Patio Furnishings

Whether dining, sharing a glass of wine or reading the *Times* over a cup of coffee, BRP by bison Cafe Collection tables and chairs will provide comfort, style and durability. Built to last, all Cafe Collection furnishings are 100% welded steel meaning no assembly and no hardware to work loose. Our exclusive Weatherbeater Mastercoat 10-year polyester over epoxy coating insures lasting beauty. Available with a variety of chair design options, BRP by bison will perfectly complement your outdoor intimate gathering space.

## Cafe™ Collection Tables

Round Cafe tables are as simple as they are functional. The unique tubular table top edge treatment adds comfort and a finished look. Unlike tables with multiple legs, Cafe tables have a single center pedestal that allows easy floor cleanup at the end of the day. Like all BRP by bison products, Cafe tables feature our exclusive Weatherbeater Mastercoat finish with a 10-year warranty so you can feel confident that your outdoor furnishing investment will look good not only the day they are installed but far into the future. Cafe Collection tables are available as freestanding with 24" base or embedded to allow permanent installation in a concrete footing. Cafe tables and Cafe chairs are ordered separately.

*Acer pseudo*  
silver maple

There are over thirteen identified species of maple trees in North America. Silver maple is also called soft maple, water maple or white maple. In early spring, it produces clusters of red flowers. Fall foliage is yellow.

Please see our Submittals page at [www.BRPbybison.com](http://www.BRPbybison.com) for specifications, CAD details, 3D models, images, comparisons, and certificates.

## Recycling Receptacles

Recycling is fast becoming the norm, not the exception. Do your site furnishings support and promote this movement? BRP by bison offers multiple options of specially designed receptacles that will complement any of our complete streetscape design collections or can be used as stand alone recycling receptacles in almost any setting. All recycling receptacles are finished with our ecoblue Weatherbeater Mastercoat finish but can be finished to match your other BRP by bison site furnishings if you desire. Choose the style that best matches your furnishings and see more information on the indicated pages of this catalog.

## Walkway Planters

BRP by bison offers a 20 gallon street planter compatible with each of our bench and receptacle collection designs. One of the styles is bound to complement your existing site furnishings and will soften your outdoor landscape areas. Choose the right BRP by bison Walkway Planter from the chart below. Each planter is approximately 22" high.

AH601 (husker)

## Walkway Ash Receptacles

While many BRP by bison litter receptacle models are available with ashtray tops, you can also enhance your landscape site furnishings with stand alone ash receptacles that match the styling of your benches and other receptacles. Each is approximately 28" high and fits in a one foot square area for ease of placement. All ashtrays are stainless steel and all steel components are finished with our exclusive Weatherbeater Mastercoat 10-year warranty finish for a lifetime of function and aesthetic appeal. Select the ash receptacle that best suits your needs from the chart below.

## Pole Mounted Litter Receptacles

Virtually every streetscape or outdoor site has existing lighting poles that are a perfect place to mount eye level, easily accessible 5 gallon litter receptacles. At 24" high at approximately 12" diameter, each receptacle has a durable but lightweight liner that can be lifted easily for litter removal. Select the best design for your site from the chart below.

PC050 (pewter)

## Pole Mounted Planters

Softening your landscape design and add color to light and power poles with BRP by bison pole mounted planters. Available in three distinctive styles, these planters are identical to our pole mounted litter receptacles except that they are 16" high. Each includes a perforated liner. Choose the style to complement your BRP by bison or other site furnishing designs.

# Wave™ bike security stations

BWA2-11-SM (pewter) with optional ZSMCV2 base covers

Sleek, modern and durable are the hallmarks of our Wave bike racks. Wave features 2<sup>3</sup>/<sub>8</sub>" pipe size tubing with elegant curves and will complement any streetscape and any style of public benches, receptacles or planters. Available in 5, 7, 9, 11 and 13 bike lengths, Wave can be ordered hot dip galvanized or finished with our exclusive 10-year warranty Weatherbeater Mastercoat finish. Choose from permanently embedded or surface mount installation options.

BWA2-07-SM (hunter)

Order optional base covers  
(see page 38)

BWA2-05-SM (husker)

*Theobroma cacao*  
cacao tree

Not for a landscape but a very important tree. Real chocolate is a cocoa paste made from cacao tree seeds. The cacao tree produces flowers and fruit year-round. The tree is small and comes from the forests of Central and South America.

Bike Capacity	Foot Print	Embedded Mount	Surface Mount

See pages 4 and 5 for color and finish details.

Items in **bold type** are stock items in raven and hot dip galvanized only. Order ZSMCV2 for optional base covers. See page 38 for details.

# HighWheeler™ bike security stations

BHW-10 (raven)

Street art meets function with HighWheeler bike security stations. This fun design is perfect for public spaces where traditional bike racks don't adequately complement the surroundings. Available in 2, 5 or 10 bike capacity, HighWheeler is constructed of heavy wall structural tubing and finished with BRP by bison's exclusive 10-year warranty Weatherbeater Mastercoat finish. HighWheeler might well be the highlight of your streetscape design.

What goes up must come down. CrestLine is unparalleled when it comes to clean lines, minimal visual interference and multiple bike capacity. Choose 5, 7, 9 or 11 bike capacity, each available with a choice of standard or custom colored 10-year Weatherbeater Mastercoat powder coating or hot dip galvanized finish. CrestLine can be ordered to be permanently embedded or surface mounted. The heavy duty 1/2" thick x 2" wide carbon steel design will provide years of service to people-powered transportation enthusiasts.

BCL-07-EM (hunter)

BHU-14 (pewter)

## Hoop Up™ bike security stations

The name says it all. Rolled round 5/8" diameter steel hoops provide high capacity, double sided bike security in a neat low profile design. The 5' long Hoop Up holds 8 bikes or choose the 14 bike Hoop Up that only requires a 20" x 10' space. Available with BRP by bison exclusive Weatherbeater Mastercoat 10-year warranty finish or hot dip galvanized for durable long lasting functionality and aesthetic appeal.

## Swietenia mahogani mahogany

Swietenia Mahogany is native to southern Florida. It is the species from which the original mahogany wood was produced. Grown today as an ornamental tree in subtropical and tropical regions. Swietenia Mahogany is listed as threatened in the Preservation of Native Flora of Florida Act.

# Flip Up™ bike security stations

With great curves and incredible flexibility, Flip Up fits virtually anywhere in pods from 1 to 101. Each shapely inverted U parks two bikes. Whether your preference is super durable hot dip galvanized or attractive 10-year warranty Weatherbeater Mastercoat textured powder coat, your street, school or park project will be a hit for people-powered communities. Flip Up 2<sup>3</sup>/<sub>8</sub>" tubular bike racks can be permanently embedded or surface mounted.

# LoopLine™ bike security stations

Simple, in both form and function, LoopLine is the perfect solution for locations where low volume bike storage is called for. These eye pleasing, unobtrusive bike racks can be grouped or installed individually and are well suited for use in narrow sidewalk spaces or at entrances to commercial buildings. ½" thick x 2" wide carbon steel inverted U can be permanently embedded or select the surface mounted style with a full ¾" thick surface mount base. Both styles are available with Weatherbeater Mastercoat powder coated finish or hot dip galvanized and each secures two bikes.

See pages 4 and 5 for color and finish details.

# Bollard Style™ bike security stations

BRB4-03-SM (pewter)

Simple bollards are popular choices when space constraints, flexibility and potential removability are important factors. BRP by bison 4½" OD bollards are available with or without bike lock loops and can be ordered as permanently embedded, surface mounted or removable mounted. Removable mount bollards include a sub-surface sleeve with lock down feature and a cap to cover the sleeve when bollard is not installed. Choose from one of our standard Weatherbeater Mastercoat finishes, a custom color to accent your landscape design or a super durable hot dip galvanized finish.

See pages 4 and 5 for color and finish details.

All removable mount bollards include lockable sleeve with cap; lock not provided. Items in **bold type** are stock items in raven and hot dip galvanized only.

# Inverted U-Style Barriers

Protect gas, water or electrical service panels and equipment with aesthetically pleasing and super durable Inverted U-Style Barriers from BRP by bison. Any area where vehicles, equipment or other traffic could cause damage to valuable property are great places to consider these versatile barriers. Available in two sizes of heavy pipe tubing each with a full inverted U-shaped radius. Barriers can be specified as hot dip galvanized or in a wide variety of standard or custom colors, each with our exclusive 10-year warranty Weatherbeater Mastercoat finish. Inverted U-style barriers are available either as embedded mount (EM) or surface mount (SM).

SPTN10

## Outdoor or Indoor Tennis System

This complete system features powder coated 3" round, heavy wall, rust proof aluminum posts and chrome plated internal net tensioning winch with removable handle for maximum player safety. A competition net and center hold down system are included making this a complete tennis court solution. The posts are designed to be permanently buried in a concrete footing but can be removable with the purchase of optional ground sleeves. Order SPTN10.

SPVB50

## Competition Outdoor Volleyball System

Competition indoor style play for outdoor sand or grass volleyball courts. This quality system features superior net tensioning, competition net and 3½" galvanized steel posts with a durable powder coat finish. Net height is adjustable from 6' to 8' for all levels of play. Order post padding and antenna separately. Order SPVB50.

SPVB20

## Recreational Outdoor Volleyball System

Great system for camps, youth programs or anywhere that outdoor volleyball fun is desired. This system features 3½" extruded aluminum posts with a durable powder coat finish and a built-in, easy-to-adjust net height system that allows net heights from 4' to 8'. The recreational net is easily tensioned with a pull of the top rope through a self locking cleat. Order SPVB20.

*Caryophyllus Aromaticus*  
clove tree

A evergreen with large leaves and flowers in numerous groups of terminal clusters. The flower buds are at first a pale color and gradually become green, after which they turn bright red, indicating it is time to harvest them as cloves.

# Sports Equipment

SPSO24P

## No Rust Aluminum Soccer Goals

BRP by bison soccer goals are designed and built with player safety and durability in mind. Whether your facility needs the flexibility of easy-to-move portable goals or permanent in-ground goals, you can count on our 4" square aluminum uprights and crossbars with a durable, bright white powder coated finish to hold up year after year in all kinds of climates. All BRP by bison soccer goals have a built-in net attachment track and full 3/4" radii on all post corners to eliminate sharp corners and net attachment hardware often found on lower quality goals.

BRP by bison portable goals include two built-in rear drums that double as transport rollers and rear safety ballast to eliminate dangerous tip over risk.

Choose from official 24' x 8' or 21' x 7' or 18½' x 6½' sizes depending on the age level of play. BRP by bison soccer goals come complete with premium white nets and are sold in pairs.

When you select BRP by bison soccer goals, you know you will get quality, safety and value.

Built-in ballast and transport wheels.

SPSO24I

	Model #	Type	Size	Material
	SPSO24P	Portable	24' (w) x 8' (h)	Aluminum
	SPSO21P	Portable	21' (w) x 7' (h)	Aluminum
	SPSO18P	Portable	18½' (w) x 6½' (h)	Aluminum
	SPSO24I	Permanent	24' (w) x 8' (h)	Aluminum
	SPSO21I	Permanent	21' (w) x 7' (h)	Aluminum
	SPSO18I	Permanent	18½' (w) x 6½' (h)	Aluminum

All soccer goals include premium nets and are sold in pairs.

# Sports Equipment

## Field Hockey Goals

SPFH10

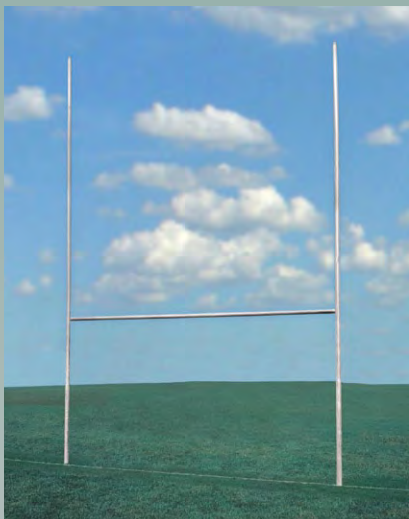

These goals meet all rules for competition field hockey play. Constructed of white powder coated aluminum extrusions, front uprights and crossbars have a built-in net attachment clip system. Black kick boards are weatherproof UHMW plastic making the entire goal rust- and rot-proof for years of play. Goals come complete with nets and are sold in pairs. Order SPFH10.

SPFB10

## Football Goal Posts

Traditional H-style goal posts can be installed at high school width (23' 4") or college width (18' 6"). Uprights extend 10' above the crossbar and permanently bury approximately 3' into the ground. The 3½" heavy wall galvanized tubing can be field painted if desired. Goal posts are sold in pairs. Order SPFB10.

SPRB10

## Rugby Goals

Rough and tough just like the sport itself, these goals feature official 18' 4" width and 27' uprights above the field of play. Galvanized 3½" high tensile strength tubing will last a lifetime. Goals permanently install in a 3' deep concrete footing. Order SPRB10 for one pair of goals.

SPTB10

## Tetherball System

Tetherball can provide hours of fun and exercise for kids of all ages without expensive equipment or large spaces. Great for school playgrounds, parks and camps. System includes 17/8" schedule 40 galvanized pole, PVC ground sleeves for removal if desired when not in use, rope and tetherball. Order SPTB10.

SPLC10

## Lacrosse Goals

Lacrosse is one of the fastest growing team sports in the US. These steel goals meet all appropriate competition rules for all levels of play. Durable powder coated steel construction and quick assembly and teardown make storage in the offseason easy. Goals are sold in pairs and include nets. Order SPLC10.

*Juglans regia*  
walnut

Grow best in rich, deep soil with full sun and long summers. Other plants often will not grow under walnut trees because fallen leaves and husks contain a chemical which acts as a natural herbicide. Trees may reach massive size and live more than 200 years.

# Sports Equipment

## Outdoor Fan Bleachers

Outdoor 15' aluminum plank bleachers are perfect for youth sports fields for soccer, football, baseball or any team youth sport where parents, grandparents and friends gather to follow their favorite team. Durability is insured with the hot dip galvanized steel support structure and the recycled plastic ground runners that will never deteriorate or rust even in wet grass. Order SPBL30 for 3 tier, 30 fan capacity bleachers or SPBL40 for 4 tier, 40 fan capacity.

SPBL30

SPBL60

## Child Safe Outdoor Fan Bleachers

These 15' bleachers meet or exceed even the most stringent local and state codes for child safety with the addition of a second foot plank and a 10" heel kick plank. The added enclosures eliminate the possibility of children falling or climbing through openings between the planks of traditional portable bleachers. Same galvanized steel structure and recycled plastic ground runners as standard outdoor bleachers above. Order SPBL50 for 3 tier, 30 capacity seating or order SPBL60 for 4 tier, 40 capacity seating.

SPBN10

## Outdoor Player Benches

Great choice for sideline or dugout player seating. Rugged 2" square welded galvanized steel supports and 15' long, 10" wide anodized aluminum planks easily seat 10 players per bench. Each bench has a comfortable backrest. Order SPBN10 for freestanding portable player bench or SPBN20 for permanent embedded player bench.

# Optional Accessories

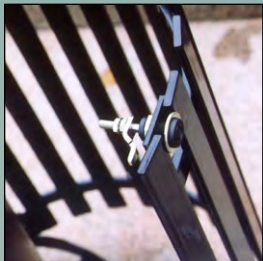

## Center Armrest

Most BRP by bison benches that are 72" or 96" long are designed to allow the addition of a center armrest to increase comfort and to reduce unwanted lounging. Only with BRP by bison are these optional armrests free. Consult your sales representative to confirm availability on the BRP benches of your choice. To add free center armrests, Model ZARMR must be included on the original order.

## Cast Memorial Bench Plaque

Designed specifically to be installed on BRP by bison's Model MC106-72 Arched Back Memorial Benches, this bronze plaque is approximately 8¼" long, 3" wide, and 5/16" thick. Mounts with two brass screws pre-drilled in bench and plaque. If no plaque is ordered with your bench, a blank plate will be installed for shipment. Contact the BRP factory sales department for details on ordering ZCASTPLAQUE.

## Optional Keylock for Side Load Receptacles

BRP by bison offers many receptacle models with side door openings. These receptacles have finger lever latches. If your application requires the side doors to be locked, add optional ZKEY to your original order. ZKEY is not retrofittable at a later date.

## Surface/Embedded Mount Base Covers

You can add a more finished look to tubular embedded or surface mount site furnishings with the addition of these optional covers. Covers are split to allow installation after the bench installation is complete. Order one ZSMCV2 for each embedded tubular component that is 2<sup>3</sup>/<sub>8</sub>" diameter and order one ZSMCV4 for each 4½" diameter embedded tubular component.

## 4½" Removable Bollard Sleeve

BRP by bison's 4½" removable mount bollard comes complete with this specially designed sleeve that is embedded flush in the concrete. In some applications, extra bollard sleeves may be required to allow repositioning of bollards as needed. Order ZSLV4 for each extra bollard sleeve required. Order ZSLV8 for each extra sleeve required for BRB8-RM 8" bollard.

## Receptacle Liners

Replacement liners for receptacles are available. Call for details.

## BRP by bison Warranty and Return Policy

BRP by bison LLC warrants all site furnishings and outdoor sports related equipment to be free from manufacturing defects for no less than one year from the date of invoice. Additionally, all site furnishings including but not limited to benches, litter, recycling and ash receptacles, bike security stations and planters carry a Lifetime Functional Warranty that covers structural and functional failure of steel components including welding.

BRP by bison Weatherbeater Mastercoat and EcoSoft thermoplastic finishes are warranted for 10 years from the date of invoice. This warranty covers coating adhesion, flaking and peeling. Cosmetic deterioration due to ultraviolet sunlight, finish chipping and resulting rust caused by abuse, handling or excessive impact are excluded from coverage.

Under no circumstances will BRP by bison warranty cover any failure that is a result of abuse, misuse, vandalism, natural disasters or lack of appropriate care. All warranty claims must be accompanied by digital photos that clearly show the failure and a copy of the original invoice. Upon determination that a warranty claim is determined to be valid, BRP by bison will repair or replace the warranted product at BRP by bison's option. Under no circumstances will any BRP by bison warranties cover any costs associated with the removal, handling, storing or reinstallation of warranted products. All returns must be labeled with a return authorization number supplied by our Customer Service Department and be accompanied by a packing list that includes the return authorization number provided by BRP by bison.

## BRP by Bison Bench ADA Compliance

When used in normal outdoor applications, including streetscapes, parks or similar public rights-of-ways, all BRP by bison benches, if installed according to the instructions provided, comply with requirements of all draft and published ADA and ABA guidelines at the time of this writing including Chapter R3: Technical Provisions, R307.6.3.2 "The Revised Draft Guidelines for Accessible Public Rights-of-Way."

Often cited Section 903 does not apply to benches installed outdoors and specifically only applies to applications when used in steam or sauna rooms, dressing, fitting or locker rooms, holding or housing cells and courtrooms.
