

# ZEAGER BROS INC

Landscape & Recreation Surfaces

• QUALITY • INTEGRITY • INNOVATION •

Now Even Better!

NEW & IMPROVED

AFFORDABLE  
COMMON SENSE SOLUTIONS.

Engineered for Safety, Accessibility, Easy Maintenance, and Greater Value.

BETTER. NATURALLY.

The Most Versatile and Cost-Effective Recreation Surface in the World. Period.

# WOODCARPET® SYSTEM 1

Always the First Choice for Naturally Beautiful and Pervious Surfaces with Access, Excellent Safety, Natural Beauty, and Easy Maintenance.

ZEAGER was first in the industry to offer engineered wood surfaces for playgrounds and is still the standard by which all others are measured.

Our ease of installation, attention to safety standards, and consistent quality assures that only the very finest materials will protect your playground for many years to come. And our exclusive network of production facilities throughout the United States and Canada keeps delivery costs low and the quality very high for each of our loyal clients.

And when compared to others, Zeager WoodCarpet® engineered wood fiber is field tested to assure that it consistently outperforms and outlasts them all when installed to our system specifications. **So for the safest and most cost-efficient recreation surfacing in North America, choose Zeager brand product and get peace-of-mind.**

## PERFORMANCE TESTED TO EXCEED EXPECTATIONS.

"Thanks Zeager Company, for our new WoodCarpet playground surface. The children at our school noticed immediately. They got a real joy out of just standing there bouncing; they loved the spongy feel. They almost didn't notice the new playground equipment. Our staff loves that the new surfacing quickly drains the water from the play area, getting our children outside faster after a rainy day. I truly recommend this product to all schools; it not only is a joy for the children it makes their play area safer."

— Clarksburg Elementary Maryland

### PRODUCED LOCALLY. No Matter Where You Live.

We have production facilities across North America. So wherever you may need WoodCarpet® Engineered Wood Fiber, we're always the local choice.

NOW YOU CAN MAKE WOODCARPET® EVEN BETTER!  
**DURADRAIN® FOAM DRAINAGE PANELS**  
 THE RIGHT FOUNDATION IMPROVES EVERYTHING.

SYSTEM 11

Start With WoodCarpet®. Add Our **Re-Engineered** DuraDrain® Foam Drainage Panels. Get Increased Benefits and Even Longer Lasting Surfaces.

# WOODCARPET® SYSTEM 11

Our **New and Improved** DuraDrain® Drainage System will Wick Water Away Faster, Add Increased Fall Protection, and Extend the Life of Your Woodcarpet® Surface.

- Testing Shows Up to **75% MORE Drainage Capacity!**
- Impact Testing Showed the **NEW DuraDrain® to Be Up to 50% MORE RESILIENT!**

**NEW! IMPROVED!**  
**DURADRAIN®**  
 4' x 6' panels

Simply combine WoodCarpet® with DuraDrain® foam drainage panels for unbeatable performance. DuraDrain® is popular for urban areas, courtyards, rooftops and other sites that are hard to get to, where excavation needs to be avoided or where it is not desirable to use drainage gravel or excavation equipment. These unique drainage panels make installation easy and add an additional 3 feet of fall protection.

In addition to its excellent water wicking performance, DuraDrain® also provides the right foundation that will promote expedited dry times and provide a long lasting surface. **Our System 11, which combines WoodCarpet® and DuraDrain®, provides the ultimate protection for your playground, your children, and your budget, too!**

## THINK SAFETY, PERFORMANCE, AND LONG-TERM SAVINGS, TOO.

"We have installed Zeager WoodCarpet® over conventional gravel drainage with great results but when we wanted to improve several playgrounds at once, we chose DuraDrain® foam drainage panels. It was quick and easy to install and gave us additional fall protection with less WoodCarpet®. In a large school district like ours saving time is priceless."  
 — AI, Maintenance Supervisor

**NATURALLY PERVIOUS. SAFE AND ACCESSIBLE SURFACE.**  
 USE OF DURADRAIN® INCREASES FALL PROTECTION, PROMOTES BETTER WATER DRAINAGE WHILE INCREASING PRODUCT LONGEVITY.

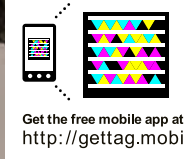

- Impact Rating: 10" Over DuraDrain® Rated to 12'
- ADA compliant: Yes, with proper installation and maintenance.
- Sub-base: Soil, Sand or Asphalt\*  
\*(Asphalt requires 12" of WoodCarpet® and WoodCarpet Mats\*)
- Green Features: Extracted, Processed & Manufactured Regionally. Pre-Consumer Recovered Content.
- Other Features: Increased Safety. Ease of Installation. System Discounts Available.
- Maintenance: Includes raking and topping off.
- Warranty: Meets ASTM F1292 for 20 years.

Looking for A Natural Alternative to 'Poured-in-Place?' Look No Further.

# BONDED WOODCARPET®

Step Up to the Ultimate Pervious Surface for Accessibility, Safety and Low Maintenance. You'll Be Glad You Did!

"The Bonded WoodCarpet® system that was installed at the Old Post School in Harford County has been great. It not only provides accessibility for all children, but has greatly reduced the maintenance time spent on this playground. Before, we would have to rake this playground several times a week. Since the installation of the Bonded WoodCarpet® pathway with slide and swing WoodCarpet Mats®, we have not needed to return to maintain the playground for several months!"

Harford County Public Schools  
Maryland

To verify product certification, visit [www.ipema.org](http://www.ipema.org)

**Upgrade an existing surface or opt for the ultimate in access and low maintenance.** Simply add Zeager's exclusive Bonded WoodCarpet®, a combination of specially formulated binders and WoodCarpet® material, spread and tamped over a carefully compacted WoodCarpet® base to make accessible pathways and transition areas, all the while maintaining your fall protection.

**Bonded WoodCarpet®** is the premier natural surface choice for new or retrofitting existing

recreational areas while offering optimum accessibility, safety, and significantly reduced maintenance. **Bonded WoodCarpet®** enhances the natural beauty of any environment and complements any brand of recreational equipment and accessories.

And, as demonstrated above, add **WoodCarpet Mats®** at key impact zones under swings and at slide exits for remarkable increases in safety and performance with dramatically less maintenance – saving you time and money, too.

**Need more information about Bonded WoodCarpet for your existing or new installation? Call or go online today!**

**NATURALLY PERVIOUS. SAFE AND HIGHLY ACCESSIBLE SURFACE. ALL THE BENEFITS OF POURED-IN-PLACE WITHOUT THE HIGH COST AND REPAIR ISSUES. PERHAPS YOUR BEST CHOICE FOR ULTIMATE ACCESS, SAFETY, AND LOW MAINTENANCE.**

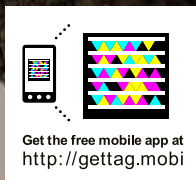

- Impact Rating: 8" at 8' and 12" at 10'
- ADA compliant: Yes
- Sub-base: Soil or Sand
- Green Features: Extracted, Processed & Manufactured Regionally. Pre-Consumer Recovered Content.
- Other Features: Pervious. Permits drainage. Improved Accessibility. No Blowing or Scattering Material.
- Maintenance: Remove debris.
- Warranty: Meets ASTM F1292 for 3 years.

# WOODCARPET MAT® HIGH TRAFFIC WEAR MATS

No More Unsightly Holes, Puddles or Costly Maintenance Headaches!

## WOODCARPET MATS® Are the Answer to Your Safety and Maintenance Problems.

Eliminate problems in high traffic areas where wood fiber may “kick out” during normal use. Increase impact protection and stability where needed most. Substantially reduce your maintenance costs

while increasing usability and longevity of your recreational surfacing. One of the best investments you will ever make!

### What WoodCarpet Mat® Users Are Saying:

“Zeager’s foam WoodCarpet Mats® are great! They are easy to install with the anchoring system that keeps the mats in place. We have WoodCarpet Mats® that were installed 5 years ago and WoodCarpet Mats® that were installed last month and you cannot tell the difference. We would recommend Zeager’s products to everyone!”

**Rockwood School District**  
Missouri

## INTRODUCING CUSTOM WOODCARPET MATS® THE PERFECT SOLUTION FOR DIFFICULT, HIGH TRAFFIC SPACES.

**ZEAGER**  
**5 YEAR**  
**WARRANTY**

Designed to be used under swings, at the exit and entrance to slides, spinners and other high traffic areas of your playground, our superior WoodCarpet Mats® are more effective than any other wear mat. Their beveled edges and unique concave shape keep loose WoodCarpet® underneath them.

WoodCarpet Mats® are installed on top of the surface keeping the area level and eliminating all kickout, which means maximum accessibility and fall protection where it is needed most.

And now, Zeager is innovating again in announcing our new, custom-sized mats which are individually designed for your high use, high maintenance areas – increasing safety and reducing maintenance costs substantially! If you have a unique or challenging area of your playground that needs protected, regardless of size or shape, please call one of our friendly customer service specialists for more information. *Your custom solution awaits you!*

**INCREASE SAFETY. INCREASE ACCESSIBILITY. REDUCE MAINTENANCE ON YOUR SURFACES.**

**AVAILABLE PVC MAT SIZES:**  
42” x 42” Slide  
78” x 78” Spinner  
42” x 78” Swing  
78” x 78” Tire Swing  
78” x 90” Swing Bay  
156” Merry-go-round

**FOAM MAT SIZES:**  
44” x 44” Slide  
44” x 74” Swing

**CUSTOM FOAM MAT SIZES NOW AVAILABLE!**

Natural Beauty, Exceptional Accessibility and Low Maintenance Make this the Easy Choice.

# BONDED WOODCARPET® TRAIL

Create Beautiful, Naturally Pervious, and Functional Nature Trails and Pathways That Require Minimal Maintenance.

"When Hawk Mountain expanded its education building, we constructed a new connector trail that leads visitors from the school bus turnaround to the facility. Built into the mountain slope, we knew standard mulch would wash away, and crushed stone would be tough on the feet. Once we learned that Zeager's WoodCarpet® Trail system was pervious, we immediately wanted to test the product. Today the new trail looks absolutely beautiful, blends into the natural environment, is low- to no-maintenance, and has helped to address our many concerns with storm water runoff — I can't stop telling people about it!"

**Mary Linkovich**  
Hawk Mountain Sanctuary Association, Kempton, Pa

### Now there's no need to compromise!

The perfect solution to those neglected walkways and trails. **Bonded WoodCarpet® Trail** is your most cost-efficient answer to easily creating flexible, natural, pervious walkways that offer excellent access, low maintenance and eco-friendly nature trails.

Offering environmental advantages over traditional alternatives, this Zeager exclusive is becoming the preferred walkscape where aesthetics and low costs are a must!

*Call us today for a no-obligation consultation to determine how you might benefit from this great product!*

### JUST A FEW OF THE MANY WAYS YOU CAN UTILIZE BONDED WOODCARPET® TRAIL.

- WALKWAYS
- NATURE TRAILS
- HIKING TRAILS
- PATIOS/GATHERING AREAS
- OUTDOOR THEATERS
- GOLF CART PATHS
- PICNIC AREAS
- PLAYGROUND ACCESS

**NATURALLY PERVIOUS. SAFE AND ACCESSIBLE SURFACE.**  
GREAT FOR AREAS WHERE SMOOTH WALK SURFACES ARE ESSENTIAL AND LOW MAINTENANCE IS DESIRED.

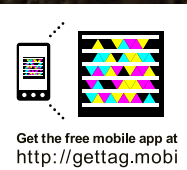

ADA compliant: Yes  
 Sub-base: Gravel  
 Green Features: Extracted, Processed & Manufactured Regionally. Pre-Consumer Recovered Content.  
 Other Features: Natural, Accessible and Pervious. Permits drainage. Reduces Runoff.  
 Maintenance: Top coat to extend life

When You Want the Look of Real Grass,  
But Not the Upkeep!

# RECGRASS® SYNTHETIC GRASS

Safe, Soft, Cushiony  
Surface for Children Just  
Crawling or Learning to  
Walk. And With No Messy  
Infill, Cleanup is a Breeze.

MADE WITH  
NYLON  
FOR SUPERIOR  
DURABILITY!

Choose **RecGrass® HP (High-Pile) Synthetic Grass** (1¼") with special root zone technology or our **RecGrass® LP (Low-Pile) Synthetic Grass** (¾") and you'll experience improved fall protection and durability. There is no need for messy, loose infill making maintenance and cleanup a snap with a vacuum cleaner, leaf blower or water hose. Its real grass appearance can be substituted anywhere that real grass would be desirable, *but the hassles of real grass make it impractical.*

The surface is tightly-woven to provide **maximum durability** and can be used in almost any location, indoors or out, *all with the simple installation, long lasting durability, and easy maintenance for which Zeager products are known.*

**AMAZING TEST RESULTS!**  
Compare them for yourself.

**THE RESULTS ARE IN.  
ZEAGER IS STILL THE UNEQUALED LEADER!**

**4 FOOT RECGRASS® HP SYSTEM:**  
Greater than **40% Better** GMAX Reading  
Greater than **60% Better** HIC Readings

**6 FOOT RECGRASS® HP SYSTEM:**  
Greater than **45% Better** GMAX Reading  
Greater than **50% Better** HIC Readings

"We had Recgrass® installed in an area at our learning center that was previously natural grass. The problem was when weather was not so cooperative, the area was wet and muddy and with little children that just wasn't practical. Now the kids can enjoy the outdoor area regardless of the weather and they return to the inside without mud stains and dirty clothes. Keeping the Recgrass® area clean is really easy too! We can vacuum it or blow it off with a leaf blower and it's ready for playtime."

Diane, Saint Joseph's Hill Lutheran Church  
Pennsylvania

## The Perfect Choice for Daycare and Pre-K Installations.

**RecGrass® Impact Test Results vs. The Competition:**  
(Readings are the result of drops done at 3 different temperatures)

RegrassHP®	Gmax	HIC	Competition	Gmax	HIC
4ft system	68.5	237.5	4ft system	125	700
6ft system	85	397	6ft system	159	833

**RESULTS:**  
4ft system: **>40% better Gmax reading / >65% better HIC** (head injury criteria)  
6ft system: **>45% better Gmax reading / >50% better HIC reading!**

"Our Early Head Start Center serves children from 0 – 3 years. RecGrass is a product I would recommend to any childcare facility that is committed to nurturing and protecting the children in their care. The children love the feel of the RecGrass. We have children crawling and learning how to walk. This product provides a safe, soft cushiony surface for them to explore their environment. It is attractive and virtually maintenance free. We simply use a leaf blower to keep it free from debris."

Community Action, Inc., Early Head Start  
Massachusetts

**NATURALLY PERVIOUS.  
SAFE AND ACCESSIBLE SURFACE.  
AMAZING 'ROOT ZONE' TECHNOLOGY  
ELIMINATES THE NEED FOR MESSY INFILL!  
CHOOSE FROM HIGH OR LOW PILE  
FOR MAXIMUM FLEXIBILITY.**

Interlocking Panels Create A Smooth Surface  
Ensuring Reliable Access to Everyone.

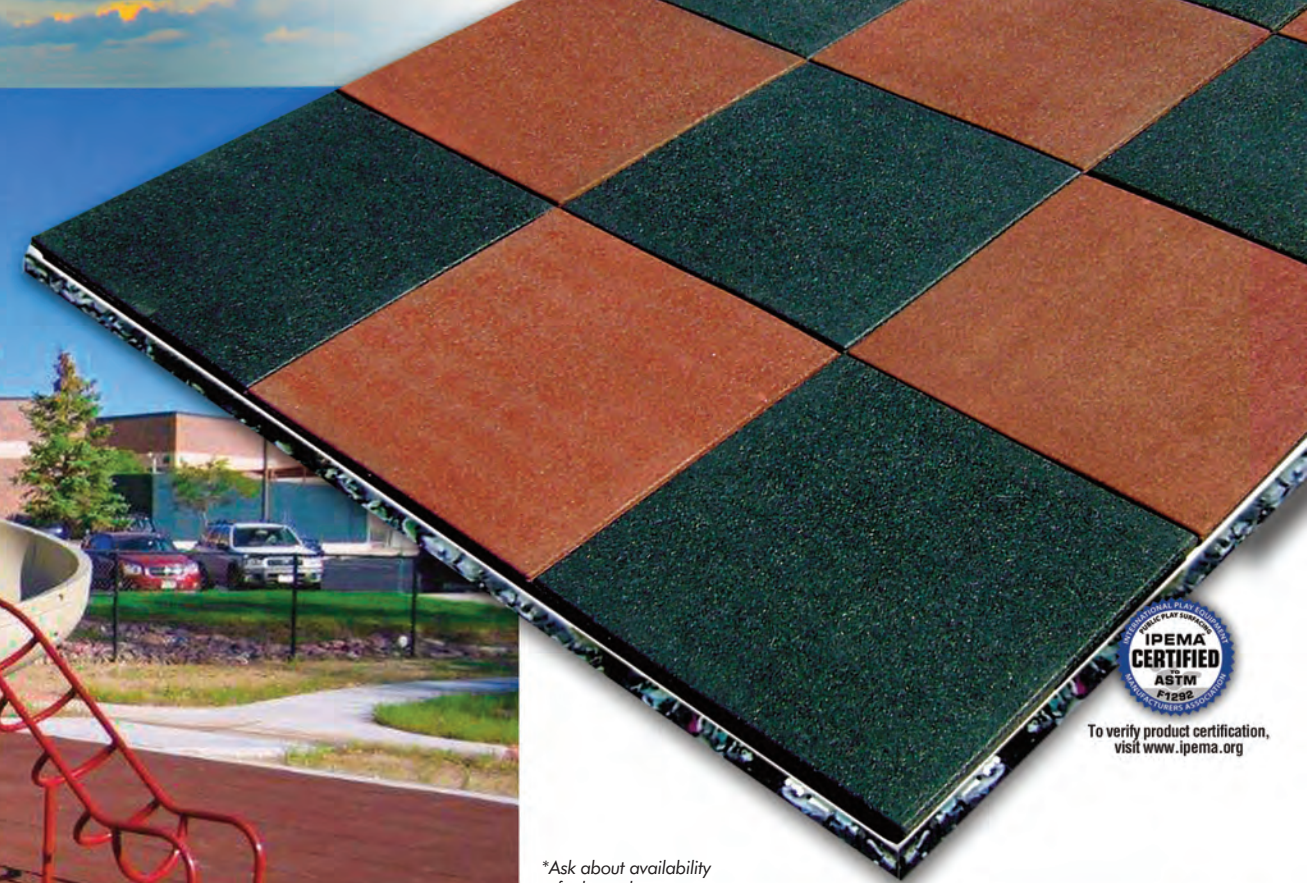

# RECMAT® INTERLOCKING MAT SURFACES

The Easy Installation of this Recycled Rubber Surface is Only Surpassed by Its Superior Access and Low Maintenance.

When you need high accessibility and low maintenance, consider **RecMat® System 71**. Manufactured from recycled rubber, our easy-to-install, interlocking tile system eliminates seam problems providing a smooth surface designed for greater play value. Avoid elaborate site preparation and experience a more reasonable approach to creating an accessible and safe play-space. With our extensive choice of colors, edge and access ramps, you will be able to assemble your new play surface with minimal tools and manpower.

And with our extensive warranty, your investment will pay for itself over the life of the product, all with peace-of-mind knowing that your children are well-protected.

When used in combination with Zeager's exclusive **RecGrass® Synthetic Grass** you will be able to create the perfect pre-school and Daycare play environment, indoors or out!
